It's Student Night at SJGS! Please support our local students who are conducting high level research.

There will be one short talk presenting student research, followed by a short poster session from several students, with topics including:

Landslide deposits along the lower Kern River of the southern Sierra Nevada, CA: High resolution mapping using LiDAR, satellite imagery and field mapping.

Presented by: Erin Walter, CSUB

Mineralogy of Soda Lake Sediments, San Luis Obispo County, California: Implications for the Regional Weathering Evolution

Presented by: Alejandro Rodriguez, CSUB

Field evidence for early Miocene synvolcanic extension north of the San Andreas and Garlock faults, Western Tehachapi Mountains, and eastern San Emigdio Mountains.

Presented by: Eneas Torres Andrade, CSUB

Impacts of the 2016 Erskine Fire on the Physical Properties of Soils

Presented by: Sade Haake, CSUB
